

A National Webinar on Empowering Diversity in Science: Gender Equality and Economic Empowerment

Introduction: About the Webinar

IUPAC Invites Scientists and Students Around the World to Join in the 3rd Global Women's Breakfast. The Event Is Titled "Empowering Diversity in Science: A Global Networking Event" Dated 9th February 2021 Department of Chemistry Govt MH College of Home Science and Science for Women Jabalpur, MP, India. Participated Through a Virtual Platform.

The Global Women's Breakfast Is Expected to Assist Women Chemists in Expanding Their Network of Contacts, Perhaps Leading to New Career Opportunities for Research, Employment, Or Education.

About The Eminent Speaker

Dr Shrilakshmi Desiraju

Director, Business Development
Triphase Pharmaceuticals Pvt. Ltd. Mysore.

Dr Shrilakshmi obtained doctorate in natural product/medicinal chemistry and MBA in technology commercialization, helped her to become a first generation Technopreneur with rich expertise in Research Commercialization, business development, developing and maintaining strategic partnership relationship in nutraceutical and pharmaceutical industry. She is the Co-founder of Triphase Pharmaceuticals, a probiotic R&D company. Besides, she has industry knowledge of out-licensing deals, R&D services, B2B marketing and B2C marketing

with an accomplished career spanning over 22 years in this domain. With Experience in both Pharma & Nutra industry as well as academia, she is proficient in the process of designing, launching and running a new business. She has received first US patent awarded in the year 2018, recipient of Economic Times - Power of IDEA award in the years 2016 and India's small giant award 2014.

Event schedule

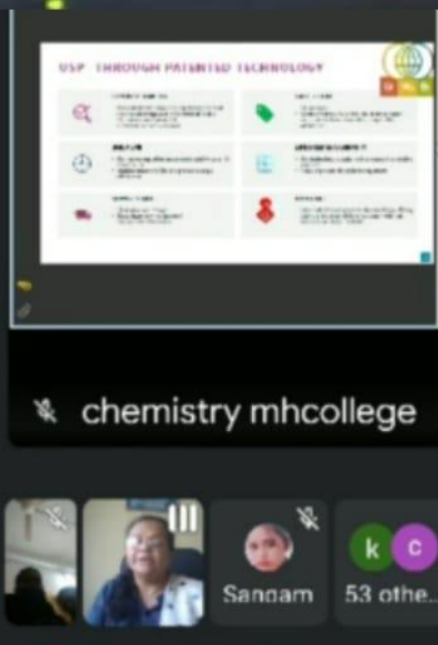

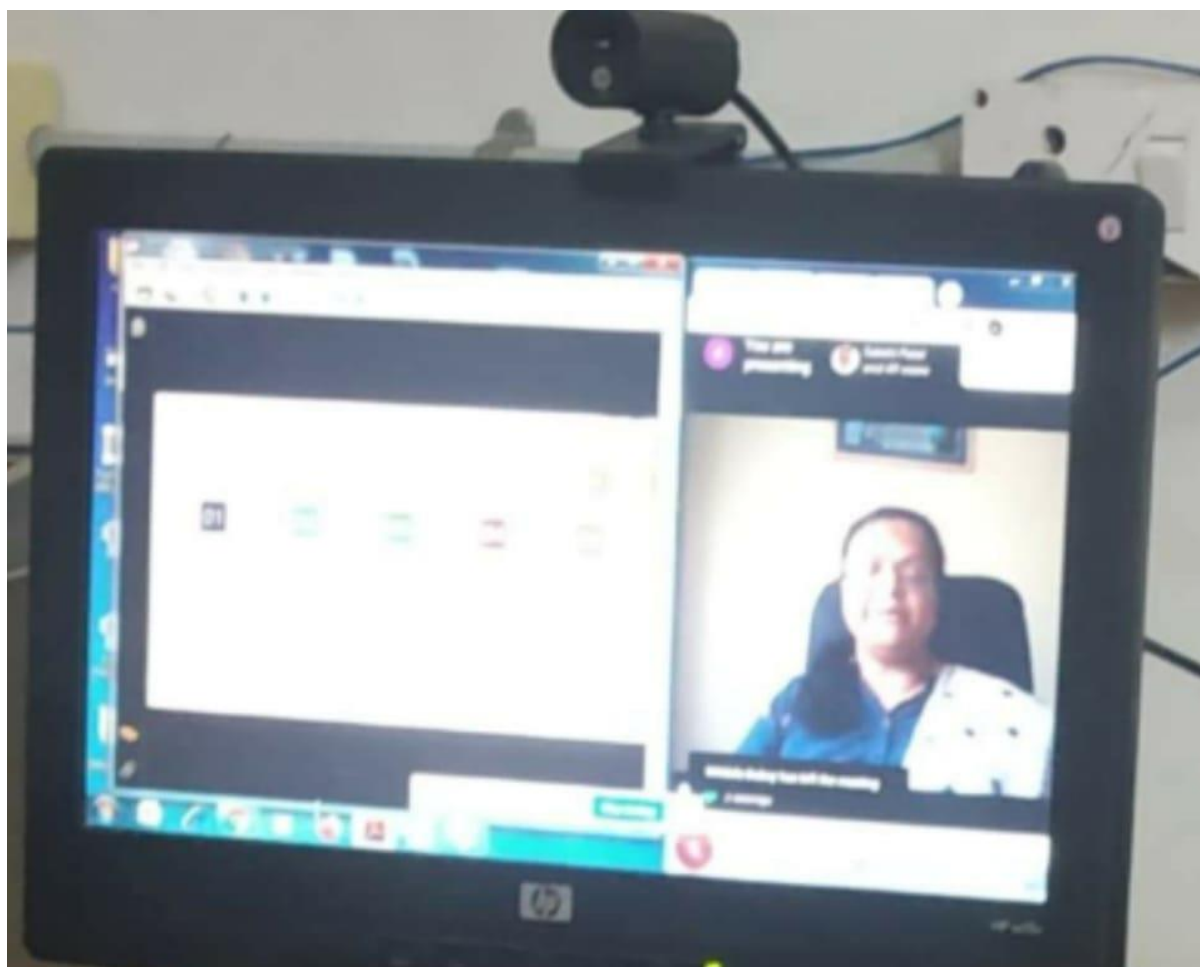

Tuesday, 9 February, 2021

A National Webinar on *Advanced Nanomaterials in Health Care*

Event schedule

Tuesday, 16 February, 2021

Technical Session:

2:00-2:45PM

Successful Strategy Sharing:

Introduction: About the Webinar

A group of scientists who have mapped out the uses of nanotechnology and the needs of global health argue that nanomedicine is relevant for the developing world. They surveyed researchers worldwide and concluded that nanotechnology could greatly contribute to meeting the Millennium Development Goals for health.

A major challenge of modern medicine is that the body doesn't absorb the entire drug dose given to a patient. Using nanotechnology, scientists can ensure drugs are delivered to specific areas in the body with greater precision, and the drugs can be formulated so that the active ingredient better permeates cell membranes, reducing the required dose

Total no of participants- 190

About the Eminent Speaker

Dr A K Bajpai

Professor, Department of Chemistry

Govt. Model Science College (Auto.), Jabalpur

Academician, Scientist, Reviewer, Writer

Areas of Research: Synthesis of biomedical polymers, drug delivery through nanocarriers, nanocomposites, stimuli responsive drug delivery systems. water remediation by nanoparticles, conducting polymers.

Invited Talks: Delivered invited talks on nanotechnology and biomedical fields at Leh Laddakh, New Delhi, Lucknow, Kochin, Mumbai (BARC), Kathmandu (Nepal), Gwalior, Bhillaspur, Durg, Vadodara, Visisha, Bhopal etc.

Ph.D.Guidance: Guided 62 candidates for Ph.D. degree

Publications: Published more than 250 research papers in international journals of good impact factors.

Reviewer: Regular reviewer of several journals like Elsevier, Wiley, Taylor and Francis, ACS and other international publications.

Research Projects: Major research projects by leading national funding agencies like Defense Research and Development Organization, Department of Science and Technology, University Grants Commission, Board of Research in Nuclear Sciences, Department of Atomic Energy.

Patents: One patent on water remediation has been filed in collaboration with the DRDO, New Delhi.

Books: 1. Responsive Drug Delivery: From Theory to Applications, By Smihter Rapra Publications (UK).

Hydrogel

Electric field,
Magnetic field,
Radiations,
Chemical agents
