### ***Ethical Values in Research Work***

The “good research practice” covers detailed and universally understood rules of appropriate that are possible to introduce in individual research units. These rules refer to the way a research work is carried out, presented and evaluate, and are created to ensure the ethical requirements are met. Each researcher from the very beginning of his or her career should be aware of the rules and the consequences of violating them.

#### ***Honesty***

Honestly report data, results, methods and procedures and publication methods. Do not fabricate or misrepresent data.

#### ***Objectivity***

Strive to avoid bias in experimental design, data analysis, data interpretation and other aspects of research.

#### ***Integrity***

Keep your promises and agreements, act with sincerity and work for consistency of thought and action.

#### ***Carefulness***

Avoid careless errors and carefully examine your own work and the works of your peers. Keep good record of the research activities.

#### ***Openness***

Be open to criticism and new ideas,

### ***Respect Intellectual Property***

Never Plagiarize. Honor patents, copyrights and other forms of intellectual property.

### ***Confidentiality***

Protect confidential communications, such as papers or grants submitted for publication, personnel records, patient records etc.

### ***Responsible Publication***

Publish in order to advance research and avoid duplicate publication.

### ***Social Responsibility***

Strive to promote social good and prevent social harms through research.

### ***Competence***

Maintain and improve your own professional competence and expertise through lifelong education and learning,

### ***Legality***

Know and obey relevant laws and institutional and governmental policies.

### ***Animal Care***

Show proper care and respect for animals when using them in research. Do not conduct unnecessary or poorly designed animal experiments.

### ***Human subject Protection***

When conducting research on human subjects minimize harms and maximize benefits'; respect human dignity.

*Note: As per the research guidelines of Rani Durgawati Vishwavidyalaya June 2018 research scholars must submit the Plagiarism check report while submitting thesis for valuation.*

*B. Dubey*

Research Coordinator

*Dr.*
